About Me

Hi! My name is Muhammad Amin, I am a Flutter Developer with more than 2 years of commercial experience in building cross-platform mobile applications for iOS and Android. I follow Clean Architecture principles and write clean, maintainable, and scalable code. My experience includes integrating REST APIs, Firebase services, and implementing modern navigation using `go_router` and Navigator 2.0.

Skills

Flutter, Dart, Firebase, REST API (Dio, http), BLoC, Provider, Clean Architecture, Hive, Git, Figma, `go_router`, Navigator 2.0, JSON, Material Design, CI/CD.

Experience

Flutter Developer – Self-employed (Jan 2022 – Present) Developed and maintained cross-platform applications using Flutter & Dart. Created and published the InfoDom app (iOS & Android). Implemented Clean Architecture using Provider and BLoC. Integrated Firebase (Auth, Firestore, Cloud Messaging). Worked with REST APIs (Dio, http), optimized data flows. Implemented offline mode and local caching with Hive. Collaborated with UI/UX designers using Figma.

Projects

InfoDom App – Cross-platform mobile application for housing and utilities: -> [App Store](#) | [Google Play](#)
